A new sketch for the future of our planet

Guided by our Management Philosophy,
"Contribute to society by passing on the best works to future generations,"
we at the Takenaka Group undertake each building and infrastructure project
with the utmost care and dedication.
In order to pass on a healthier and more prosperous earth to future generations,
we will proactively work to resolve social issues and improve the global environment
through a "regenerative" approach that goes a step beyond "sustainable."

Dreams into Reality for a Sustainable Future
